

My family and I enjoy and really depend on the K-Love station heard on 100.1 in our area. It is the only Christian station and I can count on that has consistently good reception and music (there are other stations that are mostly talk). My kids listen to K-Love often in the car and I know it encourages them too. There isn't another station that does this. Please do NOT displace it with an LPFM broadcaster. We need this station. It is always encouraging and uplifting. It's my sanctuary when I cannot stand the talking and negative news. I need to hear optimistic music and encouraging voices. Thanks.
